

SCASD Local Wellness Policy Nutrient Standards

All foods and beverages available for sale to students during the school day (from the midnight before to 30 minutes after the end of the official school day) will meet, at a minimum, the standards set forth in the federal register 7 CFR Parts 210 and 220, commonly referred to as the Smart Snacks in School rule. In addition to federal nutrient standards, foods and beverages sold to students shall also meet the following local standards:

Elementary Schools

- ✓ Items for individual sale in the school cafeterias will be restricted to bottled water and those food items offered on the school menus as part of the daily meal.
- ✓ Students will not have access to vending machines or school stores.

Middle Schools

- ✓ To the extent that it is possible for the cashiers to monitor, students will be restricted to purchasing one a la carte snack item per day. Students would be allowed to purchase two items if one of those items is bottle water or more than one a la carte item if those items are components of the school lunch.
- ✓ Access to vending machines will be restricted to before and after school and over the lunch periods.
- ✓ Marketing, pricing and nutrition education will be used to encourage students to make healthy choices.

High School/School Store

- ✓ Soda and highly-caffeinated energy drinks will not be available for sale to students in the high school.
- ✓ Marketing, pricing and nutrition education will be used to encourage students to make healthy choices.

Fundraisers

- ✓ Food fundraisers may not take place during the first ½ hour of the school day nor during the time that lunch is being served in the school building.
- ✓ All food fundraisers that occur on school property during the school day will meet USDA's Smart Snacks standards.
