Othello Final Project

After reading and watching Othello, you are going to use your creativity to invent an alternate ending for the play. It should begin any time after the end of Act IV, when Roderigo confronts and threatens Iago. You may use current, modern (appropriate) American English.

The scene will be:
* based on the characters in the play/film version we watched in class
* set in Cyprus in the same time period (late 1500s)
* written in play format

You must be prepared to present your scene with your classmates reading your script

These are the characters in Act V:

Are they dead? Alive? How? You may change any of these outcomes, and you may use any of the characters in the play for this scene

Iago
Roderigo
Cassio
Othello
Desdemona
Emilia
Gratiano
Lodovico
Montano

**Play format example**

*It is the middle of the night, and Othello wakes Desdemona*

Othello: Insert here what you would have him say

*Othello walks toward Desdemona in their bedchamber*

Desdemona: Insert here what she replies

*Othello hears a knock at the door and crosses the room to lock it*
