

Welcome to AP Calculus BC with Ms. Boob!!

This is an Advanced Placement Course. The material covered here is equivalent to the first and second semester of calculus at most universities. A complete course description given by The College Board can be found via the Web at <http://www.apcentral.collegeboard.com>. In the spring you will be given the opportunity to take an AP exam. Scoring well on this exam can earn several college credits. You will need to check with the university of your choice to find out about the credit given there.

EXPECTATIONS:

1. Come to class prepared (pencil, paper, notebook and calculator) AND on time EVERYDAY!
2. Show respect for yourself, your peers and your teachers.
3. Always give 100% effort.

GRADING:

Your grade will be determined by tests, quizzes, classwork, and practice sets. Practice sets will be collected and graded for accuracy. Points for these assignments will vary. Grades are determined by the following percentages.

10% Classwork and Homework

90% Quizzes and Tests

MAKE-UP WORK:

State High Student Make Up Work Procedure

Absences

In the event that a student is absent from class the student will make arrangements to submit his/her work, take a test/quiz, and get assignments that were missed.

- It is the student's responsibility to check teacher websites and / or contact the teacher for work. Students are expected to make up all work missed within a time period not to exceed the total number of days absent from that specific class. Thereafter, a 10% deduction may be taken for each class meeting day the assignment / assessment is late following the student's absence from class.
 - Example: Student is out Monday (A), Tuesday (B), and Wednesday (A).
Student will get A day work on Friday, and it will be due two classes later on Thursday. Student will get B day work on Thursday, and it will be due Monday.
 - Students are strongly encouraged to make up missed work and keep up with assignments while they are out.
 - Extensions may be given at the discretion of the classroom teacher.

Unexcused Absences

If a student cuts class and is unaccounted for in the attendance system, s/he cannot earn higher than half of the credit that was earned for the assignment. The assignment/assessment is due the class period that the student returns to class.

Late Work

It is the expectation that all students will turn in assignments on the given due date. Late work is an assignment not turned in by the established due date/class period. Students have up to three class periods past the due date to turn in a late assignment. Ten percent will be deducted for each class period that the assignment is late. A student who turns in the assignment more than three class periods past the due date will receive half of the credit that they earned on the assignment. In order to receive credit for late work a student must turn in any late work one week prior to the end of the marking period in which the assignment was given.

CALCULATORS:

We will provide you with a TI 84+ calculator. We are asking that each student be responsible for replacing the batteries if necessary throughout the year. Calculator replacement cost is \$100.

COMMUNICATION:

The daily agenda, daily notes, solutions, and helpful links will be posted on my Scoodle page at <http://scoodle.scasd.org/moodle/>. Please be sure to refer to this page frequently.

HELP:

If you need help PLEASE COME AND SEE ME AS SOON AS POSSIBLE. My email is lkb14@scasd.org. Please feel free to email me with any questions that you may have.

I am really looking forward to teaching calculus this year and I hope you are expecting to have a challenging and fun learning experience.
