

Dictionary / Online Translator Policy

When completing an assignment or project for your World Language classes, it is **acceptable** to:

- Look up a single word in the dictionary.
- Look up a single word online.

It is **NOT acceptable** to:

- Use an online translator to write complete thoughts and sentences.
- Use an online translator to write a paragraph or multiple paragraphs.

This is equivalent to having another student do the work, and is a **level 3 offense** under the **Academic Integrity Policy**. It states:

- “Submitting a paper as one’s own that has been wholly or mostly written by someone else whether that paper has been purchased, borrowed, found, stolen, etc.”

The **grading consequences** are one of the following:

- “**Zero** on the assignment without the possibility of resubmitting it for a replacement grade.
- Possibility of resubmission of assignment or an alternative assignment for maximum 60% of the highest grade possible.”

The **disciplinary consequences** are:

- “Student/parent/grade-level administrator conference.
- 4 hours of detention OR one-day in-school suspension.
- **No competition or participation in extracurricular activities for one week.** Attendance/practice are permitted.”

The entire **Academic Integrity Policy** can be found at the following link:
