Project Directions:

1. Construct a time line- create a timeline using power point that has 14–15 items / slides on it, indicting events in your life. Each slide should be it’s own individual event. Use pictures or symbols to illustrate each of the items, and make sure your labels are clearly posted.

Evaluation:

- Are there 14 –15 events / slides?
- Is each item labeled and illustrated?
- Is the time line visually appealing? (Neat, colorful, easy to read)
- Did you speak audibly and make eye contact with the class?
