

# ALL-STAR HOMEWORK

**We will be doing something called “ALL-STAR HOMEWORK” this year. First, the students are expected to read 20 minutes each night and complete math homework that is sent home. These “must-dos” can be counted for one star each day for reading and for each page of math. Beyond that, your student will have optional homework choices listed on the Star Homework bookmark. These choices will consist of activities that will help your child master his or her word study words, become a better reader, and improve writing, math and technology skills. Each activity completed will earn your child one star. These activities should be shared and turned in when applicable. Each time an activity is completed, your child should circle the star by it on the bookmark. On Thursday night, your child should add up his/her stars for the week, write the total, and have a parent sign the back. This bookmark will be turned in on Friday. We will total all of our stars together and our ALL-STAR TEAM (our class) will earn a reward based on the number of stars earned.**

**100 stars= 10 minutes of free choice time on Friday  
101-150 stars= 3 additional minutes of free choice time on Friday  
151 and above= 5 additional minutes of free choice time on Friday**

**Together, as a TEAM, we will GROW and SUCCEED!**

***\*Your child will have additional homework on occasion. Examples: Letter Essays, Special Projects, Make-up Work, or Unfinished Classwork.***
