# One Hundred Times as Many Version B

1 Label the dimensions of the arrays in each pair. Then draw a line to connect the pair of arrays to the matching equations on the right. Fill in the missing numbers on both sides.

$20 \times 20$  is 100 times as many as  $2 \times 2$

$3 \times 4 = \underline{\hspace{2cm}}$

$30 \times 40 = \underline{\hspace{2cm}}$

$20 \times 20$  is 100 times as many as  $2 \times 4$

$2 \times 4 = \underline{\hspace{2cm}}$

$20 \times 40 = \underline{\hspace{2cm}}$

$20 \times 20$  is 100 times as many as  $2 \times 2$

$2 \times 2 = \underline{4}$

$20 \times 20 = \underline{400}$

$20 \times 20$  is 100 times as many as  $1 \times 3$

$1 \times 3 = \underline{\hspace{2cm}}$

$10 \times 30 = \underline{\hspace{2cm}}$
