Re: High School grade Indication on PDE Website

As part of the School Performance Profile review, PDE requires the review of the information located on their website. Upon review of the website the State College High School lists grades 8-12 being offered. This grade was mistakenly checked through PDE's website. Since our district high school includes only grades 9-12, PDE is requiring that the district provide board minutes indicating that the high school includes grades 9-12.

Thank you.
