

0 = Not Implemented 1 = Partially Implemented 2 = Fully Implemented

School	Evaluator	Date	Students have access to National School Lunch and Breakfast Programs that meet at least the minimal nutritional requirements established by state and federal regulations.	Menus and nutritional standards are available on the district web page.	Students are provided with adequate time to enjoy healthy foods. (The National Association of School Boards of Education recommends minimum 10 minutes for breakfast and 20 minutes for lunch calculated from the time the student is seated.)	Dining areas are pleasant with enough space to comfortably seat all students.	Students are involved in menu planning through regularly scheduled meetings and taste tests.	The foods and beverages sold and served in the cafeteria, in vending machines, in the school store, or any other in-school outlets meet the USDA Smart Snacks in School nutrition standards, at a minimum	Food fund raisers do not occur during the first ½ hour of the school day nor during the time when lunch is being served.	Food fund raisers that occur on school property during the school day meet USDA's Smart Snacks standards.	School organizations that engage in fundraising are encouraged to consider healthy food or non-food fundraising options.	Non-food rewards and celebrations are encouraged.
